With so much work being put into developing the Wynnum CBD and the need to keep all our local businesses operating and supported, I have sourced the information of many local businesses for you to support.

I hope you, like me feel the need to support our local businesses where possible.

If you are a new business, or I haven't met up with you as yet, please contact my office to add your details to our list.

I am proud of our community and want to see it grow; by supporting our current businesses is one way to show new businesses we have the environment for them to open.

Live here - Play here and Buy here!

Peter
